

AMtec

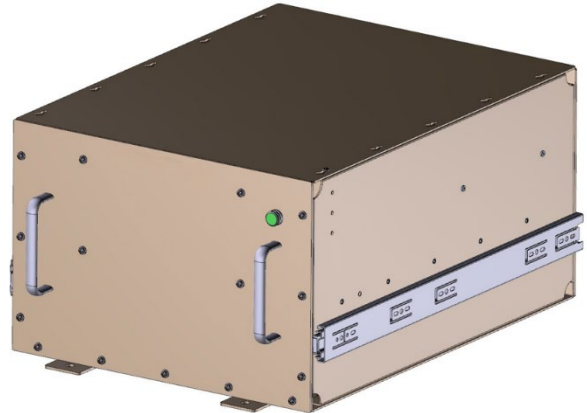

INDUSTRIES, INC.

Control Box Assembly

AMtec's Control Box Assemblies are the perfect solution to complicated control circuitry and messy packaging. These configurable assemblies allow the integration of control and DC voltage distribution into a single package slashing field installation time while boosting reliability.

Standard Features

- Integrated IPC
- Full connectorization
- Thermal Management
- Integrated PCBA
- Rack Mount Slides
- Silkscreening of all components and designators
- Ethernet Interface
- **100% Testing**

Standard Specifications

- 120VAC Input
- NEMA 5-15 IEC13 Power Cord
- 120/24V Switching power supply
- Beckhoff IPC
- Aerospace grade Amphenol connectors

Pricing

- List Price: \$25,000
- *Call for volume pricing*

Options

- 480V input option: +\$320
- 240V input option: +\$278
- 208V input option: +\$242
- 19" Rack Mount Option: +\$124
- Custom paint/finish choices – *call for pricing*
- Custom PCBA assemblies – *call for pricing*
- RS485, RS232, Ethercat communications – *call for pricing*
